

August 2013 Special

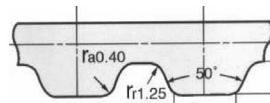

10% Off All PTS Polyurethane Timing Belts

(Conditions Apply)

T 2.5 - T 5 - T 10

AT 5 - AT 10

PTS
Power Transmission
Strongbelt

Timing belts made of Polyurethane with steel lacing tension cord and trapezoid formed teeth.

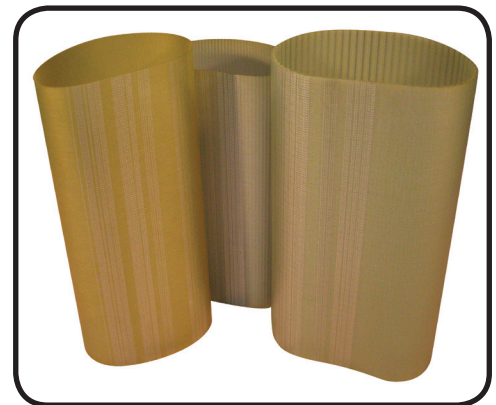

Applications:

Type T2,5: power transmission up to 0.5 kW, electro mechanical design, e.g. film cameras
 Type T5: power transmission up to 2 kW, e.g. grinding, kitchen and office machines
 Type T10: power transmission up to 20 kW, e.g. textile, printing and tool machines, pumps, compressors, bellows

Finer Power Transmissions stocks a range of Strongbelt sleeves, these are cut to ordered widths.

RANGE	Min. Length (mm)	Max. Length (mm)
T2.5	120	950
T5	165	1440
T10	260	2250
AT5	225	1500
AT10	500	1940
