

# Keep moving parts moving.

Lubricants can be used for everything from releasing seized parts to providing long-lasting lubrication of moving parts. LOCTITE® offers lubricants that can address and protect against a wide range of temperature, pressure and thermal stability needs.

Find the right product for your application

## Penetrant / Lubricant

- LOCTITE® LB 8713™
- LOCTITE® LB 8711™
- LOCTITE® ML-11™
- LOCTITE® LB 8040™

## Grease Lubricant

- LOCTITE® LB 8801™
- LOCTITE® LB 8423™

## Penetrant / Lubricant

**LB 8713™**  
Solvo Rust Super Penetrating Oil

**Base / Oil:** White Mineral Oil

**Temperature Resistance:**  
Up to 121°C

**LB 8711™**  
Penetrating Oil

**Base / Oil:** Petroleum Distillate

**Temperature Resistance:**  
Up to 38°C

**ML-11™**  
Multi-Purpose

**Base / Oil:** Petroleum Distillate

**Temperature Resistance:**  
Up to 121°C

**LB 8040™**  
Freeze and Release

**Base / Oil:** Mineral oils, Silicone-free

**Temperature Resistance:**  
-43°C to 45°C

## Grease Lubricant

**LB 8801™**  
Silicone Lubricant

**Base / Oil:** Synthetic silicone grease

**Temperature Resistance:**  
-50°C to 204°C

**LB 8423™**  
Dielectric Tune-up Grease

**Base / Oil:** Synthetic silicone grease

**Temperature Resistance:**  
204°C
