

Keep moving parts moving.

Lubricants can be used for everything from releasing seized parts to providing long-lasting lubrication of moving parts. LOCTITE® offers lubricants that can address and protect against a wide range of temperature, pressure and thermal stability needs.

Find the right product for your application

Penetrant / Lubricant

- LOCTITE® LB 8713™
- LOCTITE® LB 8711™
- LOCTITE® ML-11™
- LOCTITE® LB 8040™

Grease Lubricant

- LOCTITE® LB 8801™
- LOCTITE® LB 8423™

Penetrant / Lubricant

LB 8713™
Solvo Rust Super Penetrating Oil

Base / Oil: White Mineral Oil

Temperature Resistance:
Up to 121°C

LB 8711™
Penetrating Oil

Base / Oil: Petroleum Distillate

Temperature Resistance:
Up to 38°C

ML-11™
Multi-Purpose

Base / Oil: Petroleum Distillate

Temperature Resistance:
Up to 121°C

LB 8040™
Freeze and Release

Base / Oil: Mineral oils, Silicone-free

Temperature Resistance:
-43°C to 45°C

Grease Lubricant

LB 8801™
Silicone Lubricant

Base / Oil: Synthetic silicone grease

Temperature Resistance:
-50°C to 204°C

LB 8423™
Dielectric Tune-up Grease

Base / Oil: Synthetic silicone grease

Temperature Resistance:
204°C
